Software Architect and Developer with experience in designing and implementing solutions. Skilled in Microservices, Hexagonal, and Event-Driven architectures, as well as backend development using Java Spring Boot and WebFlux. Strong experience in Cloud Computing on AWS and Azure platforms, advanced messaging integration, and Full Stack development with Angular. Committed to engineering best practices and delivering efficient, business-aligned solutions, always focused on learning and adopting new technologies that provide value.

WORK EXPERIENCE

Software Architect & Developer - Ceiba Software

Feb 2022 - Present

Design and development of high-performance solutions using Java Spring Boot and reactive programming (WebFlux). Development of RESTful APIs, front-end applications in Angular, and advanced messaging (RabbitMQ, Azure Messaging). Management of storage solutions (Azure Blob Storage, PostgreSQL/Oracle/SQL Server) and deployments using Docker and Kubernetes. Architecture experience in Microservices, Event-Driven, and Hexagonal models.

Full Stack Developer - Asocajas

Oct 2023 - Dec 2025

Responsible for the full software development lifecycle. Implemented back-end solutions using Java Spring Boot and front-end applications with Angular. Integrated business rules with Drools and managed data in PostgreSQL. Cloud architecture on AWS (S3, Glue, Lambda, SQS, Cognito) and deployments on ECS. IaC using Terraform and containerization with Docker. Architecture experience in Microservices and MVC.

Web Developer - W-tech SAS

Aug 2022 - Nov 2022

Automation and customization of user experiences in Moodle. Front-end development (HTML, CSS, JavaScript) of interactive components and integration of a chatbot for automated support.

Web Developer - Inandina

May 2021 - Oct 2021

Development of a marketplace built on WordPress/Moodle. Implementation of PHP/MySQL logic for certificate verification and automation of course configuration, with advanced customization using JavaScript/Ajax/jQuery.

Full Stack Developer - Inandina

Jan 2019- Jan 2020

Development of applications using Java/Spring Boot, MySQL, and front-end technologies (HTML, CSS, and JavaScript).

Techno-Pedagogical Manager - UNAD

Feb 2018 - Oct 2021

Management of courses and resources in Moodle. Process automation using JavaScript and advanced Excel. Internal web development (HTML, CSS, JS) and analysis of platform usage data for the generation of strategic reports.

EDUCATION

Universidad Internacional de la Rioja (UNIR)

2020 - 2021

Master's Degree in Industry 4.0

Universidad de los Llanos

2010 - 2015

Bachelor's Degree in Electronic Engineering

CERTIFICATIONS & COURSES

- Bootcamp (Pragma): Reactive Java with Spring WebFlux, Clean Architecture, and AWS (2025)
- Introduction to Technical Writing and Code Documentation – Platzi (2025)
- Docker – Platzi (2023)
- Introduction to MongoDB – Platzi (2023)
- Angular Fundamentals – Platzi (2023)
- SQL and MySQL – Platzi (2022)
- Java: Backend with Spring Boot – Platzi (2022)
- Java SE: Object-Oriented Programming – Platzi (2022)
- Misión TIC 2022: Training in Python, Java, SQL, MySQL, Spring Boot, and REST APIs (2022)
- NDG Linux Unhatched – Cisco Networking Academy (2020)

SKILLS

- Teamwork
- Strong communication
- Analytical thinking
- Problem solving
- Task and priority management
